

13th edition of the International Conference on the
Applications of **Density Functional Theory** in Chemistry and Physics,
Lyon 2009

PARTNERSHIP CONTRACT

By becoming an official partner of DFT09, you take part in the realization of the objectives of the Congress and contribute to its success. It is also an occasion to optimize your visibility with the participants and to take advantage of the numerous contact opportunities.

The name and the logo of your organization will appear as an official partner on the site www.dft09.org (with a link to your web site) as well as on the programs and the book of abstracts which will be distributed to the participants.

Two representatives of your structure will have access to the conferences, the sessions, the lunches and the breaks.

Please complete the following information:

13th edition of the International Conference on the
Applications of **Density Functional Theory** in Chemistry and Physics,
Lyon 2009

GENERAL CONDITIONS FOR THE EXHIBITORS

1. Stand Insurance

The Exhibitor has to insure the stand at his own expense in order to cover the pecuniary consequences of the responsibility that he could incur because of the activities exercised on the site of the exhibition and conference, as well as the use of the provided places – a stand and its occupant.

The insurance of the Exhibitor will have to guarantee its own exhibited materials and the layout of the stand against any physical and material injury that could be sustained during the exhibition throughout the duration of the Congress (deterioration or damage such as fire, explosion, water damage, theft, material or real-estate degradation, act of terrorism or sabotage, strike, riot, popular movement or damage resulting from a natural disaster, etc.)

Before, or at the latest during registration, the exhibitor has to give the Organizer an insurance certificate which states the guarantees that cover each of the following points: physical injury, damage to property, and neighbour or third party appeals.

For safety reasons, the Exhibitor has to list in detail, on this present agreement, all the material that he will exhibit (see previous page).

2. Assembly and dismantling of the stands

The transport, reception and expedition of parcels as well as the validation of their contents are at the Exhibitor's expense.

The instructions concerning the possible expedition of material, as well as the assembly and dismantling schedules will be confirmed one month before the event.

If a stand is not installed during the given time slots, the exhibitor in question will not be refunded the sums paid by him, nor will he receive any compensation.

The Exhibitor is responsible for the material and equipment provided, and can use it only within this present agreement. Any deterioration to this material or equipment caused by his installations or his goods, either in the exhibition stand, in the conference building, or on the grounds, will be at the Exhibitor's expense.

Please return the complete form, signed to:
